Tachycardia

1. **TACHYCARDIA With Pulses and Poor Perfusion**
   - Assess and support ABCs as needed
   - Give oxygen
   - Attach monitor/defibrillator

2. **Evaluate QRS duration**
   - Narrow QRS (≤0.08 sec)
   - Wide QRS (>0.08 sec)

3. **Symptoms Persist**
   - Evaluate rhythm with 12-lead ECG or monitor

4. **Probable Sinus Tachycardia**
   - Compatible history consistent with known cause
   - P waves present/normal
   - Variable R-R; constant P-R
   - Infants: rate usually <220 bpm
   - Children: rate usually <180 bpm

5. **Probable Supraventricular Tachycardia**
   - Compatible history (vague, nonspecific)
   - P waves absent/abnormal
   - HR not variable
   - History of abrupt rate changes
   - Infants: rate usually ≥220 bpm
   - Children: rate usually ≥180 bpm

6. **Search for and treat cause**

7. **Consider vagal Maneuvers (No delays)**

8. **If IV access readily available**
   - Give adenosine 0.1 mg/kg (maximum first dose 6 mg) by rapid bolus
   - May double first dose and give once (maximum second dose 12 mg)
   - Synchronized cardioversion: 0.5 to 1 J/kg; if not effective, increase to 2 J/kg
   - Sedate if possible but don't delay cardioversion

9. **Possible Ventricular Tachycardia**

10. **Synchronized cardioversion**
    - 0.5 to 1 J/kg; if not effective, increase to 2 J/kg
    - Sedate if possible but don't delay cardioversion
    - May attempt adenosine if it does not delay electrical cardioversion

11. **Expert consultation advised**
    - Amiodarone 5 mg/kg IV over 20 to 60 minutes
    - Procaïnamide IO/IV 15 mg/kg IV over 30 to 60 minutes
    - Do not routinely administer amiodarone and procaïnamide together

**During Evaluation**
- Secure, verify airway and vascular access when possible
- Consider expert consultation
- Prepare for cardioversion

**Treat possible contributing factors:**
- Hypovolemia
- Hypoxia
- Hydrogen ion (acidosis)
- Hypo-/hyperkalemia
- Hypoglycemia
- Hypothermia
- Toxins
- Tamponade, cardiac
- Tension pneumothorax
- Thrombosis (coronary or pulmonary)
- Trauma (hypovolemia)
